I would like to let you know how much we appreciate your help, knowledge, and experience, with our leak on our commercial building for the Gym. When most companies will over promise and under deliver, it was 180 degrees different with your company. Being in the construction business myself, I know the little repair job, I needed was way more trouble and aggravation, for what had to be a very little, if any profit. You treated us as if we were a repeat customer on a \$100,000.00 job. Our roof problem was as important to you as it was to us, it will not be forgotten, and is greatly appreciated. If ever I have a roof to be dealt with or know anyone that does, I will always call you and highly recommend your company.

Wishing you and your company great success!
